DETAILED ACTION

This application has been examined. The claims 1-20 are allowed.

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance: The present invention is directed to a pointing device comprising an elastic plate having a plurality strain resistant element disposed on a lower surface of the elastic plate, a plurality of terminal electrodes disposed on the lower surface of the elastic, and a manipulation post arranged to extend from a center of an upper surface of the elastic plate, the plurality of terminal electrodes being electrically connected to the plurality of strain resistant element. The combination of the closest prior art of Shibata (US 6,360,622), Ogata et al. (US 6,935,956) and Narusawa et al. (US 5,754,167) shown a similar invention, however, they fail to teach a base plate on which the elastic plate is mounted and which supports an outer periphery of the elastic plate, the base plate being arranged with a predetermined gap with respect to the lower surface of the elastic plate and having a plurality of connecting land electrically connected to the plurality of terminal electrodes; the elastic plate having a perforation or notch in at least one position thereof, the perforation or notch being arranged such that a pin can be inserted therein; and the elastic plate having a plane shape which is not rotation-symmetric or the base plate having a concavity formed therein, the elastic plate being mounted in the concavity as claims 1 and 10.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
